PROFESSIONAL SUMMARY

Results-driven Computer Science graduate with hands-on experience in Python Development, Machine Learning, Data Science, and AI application development. Currently interning at Amdox Technologies, contributing to NeuralRetail, an AI-powered retail analytics platform. Skilled in building end-to-end ML pipelines and backend applications using Python, FastAPI, Django, Scikit-learn, Pandas, NumPy, and Streamlit. Developed production-ready ML and API-based applications integrated with OpenAI-powered solutions. Seeking opportunities in Python Development, Data Science, Machine Learning, and Data Analytics.

TECHNICAL SKILLS

Languages: Python, SQL, Java

ML & Data Science: Scikit-learn, NumPy, Pandas, Matplotlib, Seaborn, OpenCV, YOLO, PySpark, PyTorch

ML Concepts: Data Preprocessing, Feature Engineering, Model Deployment, EDA, Classification, Anomaly Detection, Hyperparameter Tuning

Backend & API: FastAPI, Django, Django Ninja, Node.js, REST APIs, Firebase, SQLite | **Databases:** MySQL, MongoDB, PostgreSQL

Frontend: Streamlit, React.js, HTML, CSS, JavaScript, Figma | **Visualization:** Power BI, Matplotlib, Seaborn

Tools: Git, GitHub, Postman, Jupyter Notebook, OpenAI API, MLflow, Arduino IDE

Generative AI: LLM Fundamentals, Chat Models, Embedding Models, Prompt Engineering, Semantic Search, Embeddings, RAG Concepts, LangChain Fundamentals, OpenAI GPT, Claude, Gemini, Hugging Face (Basics)

EDUCATION

Maharashtra Institute of Technology — B.Tech, CSE | Expected: May 2026 | CGPA: 8.73/10

Relevant Coursework: DSA, DBMS, Computer Organization & Architecture, Operating Systems, OOPs, Machine Learning

EXPERIENCE

Data Science Intern | Amdox Technologies | April 2025 – Present

GitHub: <https://github.com/patil-08/NeuralRetail.git>

Live Demo: <https://neuralretail-production-1569.up.railway.app/docs>

Project: NeuralRetail – AI-Powered Sales Intelligence and Predictive Analytics Platform

- Built a retail ML platform for demand forecasting, churn prediction, and inventory optimization.
- Developed a demand forecasting model using Prophet and LSTM for 30-day SKU-level predictions.
- Created churn prediction models using XGBoost and LightGBM with explainability features.
- Designed Spark and Delta Lake ETL pipelines with automated data quality checks.
- Delivered a Streamlit analytics dashboard integrated with FastAPI, Redis caching, MLflow tracking, and Airflow orchestration.

PROJECTS

UPI Fraud Detection System | Python, PySpark, Scikit-learn, FastAPI, Streamlit | 2026

GitHub: <https://github.com/patil-08/upi-fraud-detection.git>

- Built end-to-end ML pipeline detecting fraudulent UPI transactions with 94% accuracy using Random Forest and Logistic Regression on 500K+ records.
- Used PySpark for large-scale data ingestion; improved precision by 18% via feature engineering; deployed via FastAPI with Streamlit dashboard.

Loan Approval Prediction System with AI Chatbot | Python, Scikit-learn, FastAPI, Streamlit, OpenAI API | 2026

GitHub: <https://github.com/patil-08/upi-fraud-detection.git>

Live Demo: <https://loan-approval-ml-hmhp.onrender.com>

- Built end-to-end ML pipeline to predict loan approval using applicant financial data; stored predictions and history in SQLite.
- Developed FastAPI backend for predictions and user authentication; Streamlit dashboard for real-time visualization.
- Integrated OpenAI API chatbot to explain results and provide suggestions; managed version control via Git and GitHub.

AI-Based Road Safety Detection System | Python, OpenCV, YOLO, Pandas | 2026

GitHub: <https://github.com/patil-08/roadsafetydetection.git>

- Built real-time road safety detection using YOLO for traffic violation identification; used Pandas and Matplotlib for analysis.

Movie Review API | Python, Django Ninja, MySQL, Postman | 2024

- Built RESTful API with full CRUD operations using Django Ninja; tested 15+ endpoints with Postman for reliability.

E-Commerce Website | Node.js, MongoDB, JavaScript | 2024

GitHub: <https://github.com/patil-08/Style-Up-E-commerce-Website.git>

- Developed full-stack e-commerce platform with product browsing, cart management, and secure checkout.

CERTIFICATIONS

- Deloitte: Data Analyst Certificate | 2025
- Business Intelligence with Advanced Excel and Power BI | 2024
- CSRBOX: Agentic AI – From Learner to Builder: AI Agent Architect | 2025
- Oracle Academy: Database Management System | 2024
- STTP: Master Industry-Grade Python Skills | 2024
